Case K 182

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In Re Application of: Wolfgang Eppler et al

Title: DIGITAL ELECTRONIC METHOD FOR INCREASING THE CALCULATION ACCURACY IN NON-LINEAR FUNCTIONS AND HARDWARE ARCHTECTURE FOR CARRYING OUT SAID METHOD

Hon. Commissioner of Patents and Trademarks Washington, DC 20231

July 9, 2001

SIR:

INFORMATION DISCLOSURE STATEMENT - SECTION 1.97(b)

Under the provisions of 37 C.F.R. Section 1.56, and in accordance with 37 C.F.R. Sections 1.97 and 1.98, applicants' representative hereby submits US Patent & Trademark Office Form PTO-1449. Copies of the references cited therein are submitted for consideration in the examination of the above-referenced patent application. It is respectfully requested that they be made of record, along with whatever references the Examiner may find in the course of a search, should the Examiner consider them material to the subject application.

This Statement is hereby submitted under Section 1.97(b) since it is being submitted concurrently with the filing of the above-referenced application.

The references are discussed in the introductory part of the application.

The first reference, which was marked "X" in the International Search Report and which is considered to be the most pertinent reference, has been considered in the Preliminary Examination report (see enclosed translation).

The references do not disclose that in a digital electronic method for increasing the calculation accuracy in non-linear functions and a system for performing the method,

wherein an input format has a strictly defined word but the fixed point may be at different locations, the values are so processed that the accuracy of the calculations and also the calculation speed are substantially increased.

Respectfully submitted,

Klaus J. Bach, Reg. No.: 26832
